

KOHLER[®]

UNINTERRUPTIBLE
POWER

Trainee Field Service Engineer
Apprenticeship

We are one of the UK and Ireland's leading providers of power protection systems. Together with our parent company, Kohler Co., KUP is a driving force within the power protection industry offering pioneering product technology, service excellence and global reach.

Our uninterruptible power supplies are highly advanced pieces of power electronic hardware. They are designed to deliver a continuous supply of power to our customer's mission critical equipment, to ensure that during power outages or surges their equipment is kept online.

Our Trainee Field Service Engineer Apprenticeship

We believe you're the future of our business, that's why we are recruiting the brightest talent to become our apprentices. You'll need to learn the skills to become a Field Service Engineer and we'll be making a big investment in your learning and development, providing study and hands on training to ensure your apprenticeship is successful. During your journey you'll also be undertaking a range of secondments, projects, and formal training courses to build your skills and knowledge in electrical and electronic engineering.

Entry Requirements:

- GCSEs including a minimum of grade 4 (C) or above in Maths, English and Science.
- Level 3 Qualification in Engineering (Advanced Manufacturing, Electrical/Electronic). Similar relevant level 3 qualifications for electrical or electronics will also be considered.
- Full UK Driving License

Qualifications

You'll be completing a 3 year Apprenticeship programme, which will result in the award of the following qualifications:

- Level 3 Apprenticeship in Maintenance and Operations Engineering Technician Standard
- BTEC Level 4 Higher National Certificate in Electrical/Electronic Engineering.

Pay and Benefits

We offer a range of benefits to our apprentices, here's a selection of them

- £18,000 starting salary in Year One
- 25 days holiday
- Fully funded training and qualifications
- Company van supplied
- Tools and Equipment
- Laptop and smartphone supplied
- A great pension scheme
- Fantastic range of benefits

Once qualified our Field Service Engineers can earn a salary in excess of £36,000 including pay enhancements.

Start your apprenticeship

If our apprenticeship programme sounds like the opportunity for you then please get in touch.

Email us a CV and a covering letter explaining why you would like to be considered for our apprenticeship.
